

From boys ² men

Optimising a successful, empowered & resilient journey to manhood.

THE SCIENCE AND PRACTICE OF RAISING, CONNECTING TO AND EDUCATING OUR BOYS

Helping boys to reach their potential.

Our little and big boys are journeying towards manhood – and we want to make that a successful, empowered and resilient one. Explore the world of boys from the exciting brain-science through to the practical ways of helping them to reach potential.

Girls are outperforming boys a school and at university – and why is that? What’s happening every day in classrooms that amplifies the learning capability of our boys – and what closes it down? Getting boys to learn and to love learning can range from easy through to almost impossible. Take a unique and memorable journey through the development of a boy – from the way in which his brain works through to how that translates into learning behaviours.

Practical Strategies for meeting the needs of boys

We know that this workshop will make lightbulbs go off, there will be ‘aha-moments’ a-plenty and it will definitely change the way you understand, plan for and teach boys. By the end of this workshop, you will be fully qualified to speak in fluent Martian – yep, Mars, that’s where boys come from and we can take you on a journey of enlightenment there.

This is the workshop series that brings you the science and the practice of raising, educating and connecting with our precious, vulnerable, chaotic and amazing boys.

Learn from the BEST

HELEN DAVIDSON

Helen Davidson (Occupational Therapist, Masters Counselling, Family Therapy) and Claire Orange (BSci Speech Pathology (Hons), Counselling, Family Therapy) bring a collective 55 years of child, adolescent and family therapy to BEST Programs 4 Kids. Both have worked nationally and internationally in health and education and are sought after speakers, experts and advocates in the child, adolescent and family mental health.

CLAIRE ORANGE

Appearing as Channel 9, ABC National Radio and 6PR’s parenting and mental health experts, the team at BEST appear weekly as media spokes-people for children and their families.
