in WELLBEING

Welcome...

You've found your way to the BEST Online Course for Early Childhood Educators. And it really **is** the BEST, most comprehensive, practical information delivered to you by experienced therapists with many decades of in-school, family-based and child-centred practice under their belts. No more dry, academic content that's perfect on paper but has little application in the busy, messy and complicated world of little children.

Because we understand that keeping abreast of current theory and practice can be difficult - even with time set aside for training - but with our Online Training Course you can access on-demand in your time and know that what you're watching will grow your knowledge and add to your practice.

Comprising four Modules with 90 minutes of training, each comprises 3 x 30 minutes sections to help both the viewing - and processing - of the content. **In addition, each Module is supported by a unique downloadable Reflection Guide** to extend the learning and enable readily available discussion with colleagues.
